SOS BAG - VARIABLE SIZES SOLUTIONS

Weber™

Large application possibilities with a unique machine !

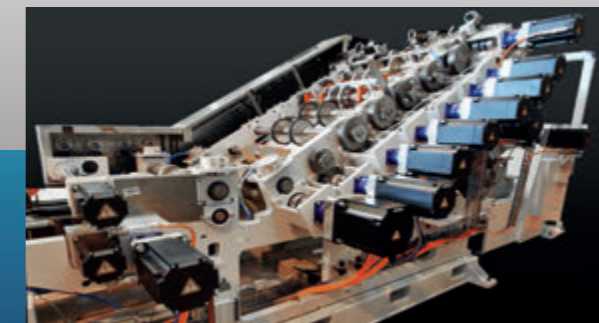

LARGEST BAG RANGE OF THE MARKET

The 5XF is capable of producing bag sizes that range in 3.25 inches to 13 inches in width, which makes this the widest range on the market for SOS bag making machines.

FASTEST SOS BAG MACKING LINE

Produce up to 400 bags per minute, and 250 bags per minute with the IH400 Flat Handle Unit.

SIMPLIFIED SETTINGS

The new design for the servo driven bottom closing device enables easy set-up for the operator, and improved production speeds.

USER-FRIENDLY HMI

The HMI offers a user-friendly and modern interface for machine operators. Menu navigation is even more intuitive through simplified menu settings.
